

# MagIQtouch Controller

## – featuring advanced touch screen technology

With the MagIQtouch Controller, operating your Breezair is a breeze. It's smart, sophisticated and intuitive. And, its sleek, modern design will meld with the décor of almost all Australian homes. You don't have to re-learn how to use this controller. Its technology is based on the same simplistic functions of other touch screens you're familiar with. It has intuitive user navigation, making the operating process simple.

With your lifestyle very much in mind, the MagIQtouch Controller has been designed to make your life a breeze, and together with your Breezair evaporative air conditioner, it will make your home a haven on hot summer days.

### Installation wizard

Upon installation of your Breezair Icon evaporative air conditioner and MagIQtouch Controller, your installer will be taken through an Installation Wizard. This ensures your Controller is set up correctly with an easy to follow, step-by-step navigation system specifically designed to make the installation process simple.

### Program

If you like routine and want to "set and forget" a seven day program that suits your lifestyle, then Program Mode is for you.

Program Mode divides each day into four time periods. You decide when each of these periods begins and what you want your system to be doing.

And, Program Mode is flexible. If you leave or arrive home early, you can easily skip forwards to the next period. The program will take over again once the next time period begins.

### Intuitive user navigation

There is no need to display advanced functionality if it isn't required. You have the choice to view simple or advanced displays.

In simple display you can set your mode and temperature and let the MagIQtouch Controller do the rest!

Or, if you would like access to more advanced features, by touching 'More' you can select manual temperature mode, manual fan speed mode, or program mode and access other settings.

MAGIQTOUCH  
AIR SENSOR

### Optional

Allows you to mount your MagIQtouch Controller in the most convenient place in your home, because the MagIQtouch Air Sensor detects the temperature, not the Controller.

MAGIQTOUCH  
CONTROLLER

MagIQtouch Controller  
warranty

### Intuitive user navigation

Simple and advanced display options.

### Installation wizard

Steps the installer through the commissioning process for optimum operation.

### Manual mode

Manually control temperature and/or fan speed settings.

### Program mode

Settable 7 day, 4 time periods program, customisable to suit your lifestyle (including a temporary over-ride function).

### Energy saving night quiet mode

When turned on, the Energy saving night quiet mode automatically reduces fan speed during the night for even greater economy and whisper quietness.

### Date and time

Date and time displays appear on all operation screens.

### Child access lock

Select a pin code to control access to your Controller.

### About appliance

Displays information about your appliance including serial number, model number, and software version.

### Adjustable working temperature range

Customise the temperature range displayed on the slider.

### Status information

When this option is turned on, a temporary information display window becomes accessible on all Manual and Program screens to aid in troubleshooting.

### Inbuilt diagnostics

If a fault is detected in the system, a fault message dialogue box will appear with information about the fault and some options to resolve the issue.

### Service

The Service menu contains information and functions to assist service personnel. Access is locked with a service pin code.

### Settings

Change the Controller and system settings to suit your requirements.

### Screen Brightness Adjustment

Adjust the brightness of the screen when in standby mode, to suit your home and preference.

### Simple Mode Lock

Lock the display in simple mode if you don't want to worry about advanced operating modes.

### Program skip forward/back functionality

Ability to skip forward on the program if you arrive or leave home earlier than usual.

# The Breezair Icon Range

## Breezair® specifications

Model	EXQ130	EXQ150	EXQ170	EXQ190	EXQ210	EZQ215**
Nominal Power Motor (W)	500	550	750	1100	1500	1500
Width (mm)	1160	1160	1160	1160	1160	1160
Depth (mm)	1160	1160	1160	1160	1160	1160
Height (mm)	660	860	860	860	860	1240
Operating Weight (kg)	78	84	84	84	85	94
Cooling Capacity (kW)***	6.5	9.4	10.6	11.4	12.3	12.9

\*Colours may vary.  
 \*\*Model EZQ215 is available in slate grey and terracotta colours only.  
 \*\*\*The Icon models have the same cooling output as previous years, however, our new NATA accredited testing laboratory has enabled us to be much more accurate when calculating cooling capacities and these latest cooling capacities will be reflected in the specifications of all Seeley International models as well as in the test results of all our competitors' models.  
 The above data was drawn from Meridian Test Laboratory's test analysis. The testing was performed by a NATA accredited laboratory to the requirements of the Australian standard AS2913-2000 "Evaporative Air Conditioning Equipment." Achievable with ambient 38 °C DB, 21 °C WB, room temperature 27.4 °C.

# Features and Benefits

## MagIQtouch Controllers – Homemaker and Harmony

Features	Benefits	Homemaker EXQ series	Harmony EXQ & EZQ series
MagIQtouch Controller*	Smart, sophisticated and intuitive touch screen controller.	✓	✓
Icon® Series Fan	Ultra-quiet centrifugal fan designed to deliver optimum air output.	✓	✓
Fan speed	1 to 10 speed.	✓	✓
Fan only	Operate the cooler in Fan Only mode (no water) to flush fresh air through the home and expel odours.	✓	✓
Hushpower® direct drive InvertaCool motor	Exclusive to Breezair, the Hushpower motor is incredibly quiet and highly efficient throughout the operating range, using far less energy.	✓	✓
Weatherseal®	Automatic sealing system to reduce draughts.	✓	✓
Pre-wet function	When turned on, the Pre-wet Function will run the pump for a few minutes to allow the pads to be fully saturated before the fan is switched on, ensuring that only cooled air enters the home.	✓	✓
Drain and dry	Automatically drains water from the tank when the system is not in use to prevent algae growth and obviate seasonal maintenance.		✓
WaterMiser®	WaterMiser monitors water quality to reduce consumption, minimise waste and eliminate unnecessary dumping of water. It also enables the minimisation of salt deposits throughout the unit. It drains salt laden water from the cooler to enable it to be replaced with fresh water, whenever it may be needed.		✓
Manual drain	Turns the cooler off and drains the tank.		✓
Pad flush	Ideal for bushfire prone areas, 'Pad flush' turns the cooler off and runs the pump continuously or for a set time.	✓	✓
Auto re-start (optional)	After power outage, your cooler will automatically restart.	✓	✓
